# See why John McClure Snook Regional Center is the area's best memory care community!

## Safe, Caring and Memory Enhancing

The John McClure Snook Regional Center is Mercy Medical's state-of-the-art memory care community, designed as a secure, comforting home for residents with Alzheimer's and dementia. The Center provides a safe, caring and memory enhancing environment where residents can live with dignity in an atmosphere of love and understanding.

Licensed and certified by the State of Alabama, the John McClure Snook Center is a 64-bed, 30,500-sq. ft. regional facility, architecturally designed for memory-impaired residents. Memory-focused activities, group exercise and the sights and sounds of yesteryear enrich the lives of residents and enhance their health and lifestyle.

*Designed to feel like home*

- Family-like common areas where residents participate in activities with a small group
- Secure courtyard for residents to roam
- Landmarks assist residents in identifying their personal space and finding their way around the center
- Antiques, pictures and other memorabilia provide comforting yesteryear atmosphere
- Main Street, America Shopscape includes a barber shop/beauty salon, a soda fountain, a library and a post office

*Memory focused activities*

- Recreational therapist coordinates a daily calendar of activities
- Activities are focused on stimulating Alzheimer's and dementia residents' interest and quality of life.
- Games: Bingo, cards, etc.
- Daily Exercise Programs
- Music & Singing Programs
- Picnics & Birthday Celebrations
- Garden Activities

*Memory care programs*

- Project Lifesaver
- Adult Day Program
- Monthly Support Groups
- Respite: short-term night stays

*Located in Daphne, AL*
