# Help Us Help You Bee Safe!

If you need assistance, please use your call light - someone will answer as soon as possible.

Do not reach for items. Try to keep your phone, call light, and tissues close to you, so you do not have to reach for them.

Tell the nurse about anything that might cause a fall such as spills, clutter, cords or equipment on the floor.

Make sure your wheelchair/bed is locked before you get out of it.

When getting out of bed, sit on edge of bed for a few minutes, and then stand up slowly.

Do not use rolling furniture to support yourself when walking.

Wear non-skid slippers or footwear.
